

Configura®

Training

We are committed to providing training and support to make you competent and confident in issuing Configura chairs.

There are two ways we can help prescribers:

Product awareness days - we visit your organisation to carry out detailed product training sessions covering the functions and issuing of the chair.

Professional seminars - day long seminars delivered by professional Occupational Therapists to raise awareness of seating issues such as pressure and posture management.

Mechanism options

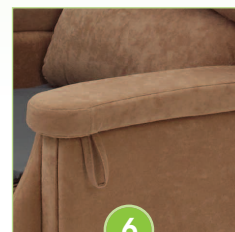

Single Motor Tilt-in-space

eliminates shear forces on the user's back, provides a seat 'ramp' to reduce the tendency to slip forwards in the chair and is good for circulation and pressure relief as the user's ankles elevate higher than the hips.

Dual Motor Tilt-in-space

Similar to the Single Motor Tilt-in-space but with an extra motor which controls extra backrest recline.

Supportive armrests.

Easy to use handset.

'Soft to touch' vapour permeable fabric seat base and legrest.

Sides shaped for easy hoist access.

Shaped armrests for easy transfers.

4

Interchangeable backrests

Comfortable Multi Adjustable Pillow backrest. Available with lateral support in the pillows.

Lateral Support Backrest for moderate posture control.

Adjustable Lateral Support System for more aggressive posture control.

Profiled Headrest for better head control.

5

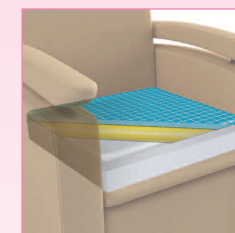

Pressure cushion options

A wide range of pressure cushions to suit different users needs.

Castellated

ViscoGel

Visco

Cushionair powered alternating air cushion.
