50 Heavy Duty Bariatric Couch

Every department should have at least one heavy duty plinth, able to safely lift a very heavy patient to a suitable treatment height when the need arises. This bariatric couch is suitable for a wide range of uses and can be fitted with arms, divided legs and other accessories to make it into a truly multi-purpose couch. Motorised backrest recommended.

Features: unique lifetime guarantee, easy electric operation, fully hoist accessible, low running costs, high density fire retardant foam, breathing hole, hardwearing anti-microbial vinyl, able to lift 320kg from its lowest height, full choice of accessories and colours.

BARIATRIC Trolley

New product designed to allow patients to be moved safely and comfortably from bed or procedure table, this trolley can be used as a wheelchair, recovery trolley or even treatment couch. Its sheer versatility reduces patient handling and can dramatically lessen the risk of patient or carer injuries and as it easily lifts 320kg it will safely handle even the heaviest patient.

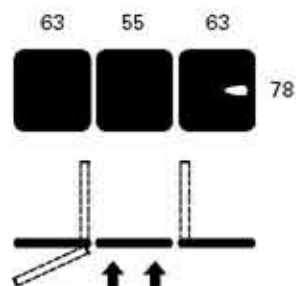

Features: electric height, motorised backrest, battery operation, pressure relieving memory foam, cot sides/padded arm supports, push handle, iv pole, 80cm wide seat, 90° drop divided legs and foot plates, oxygen cylinder holder, twin lock castors, hoist compatible, unique lifetime guarantee, easy operation, low running costs, hardwearing anti-microbial vinyl, able to lift 320kg from its lowest height, full choice of accessories and colours.
