## What's New for 2013

At Marsden we have been working hard to develop new products.

We have now added a new portable 2g baby scale to our range of scales. You can find details of the **M-300** on page 6.

Marsden **MC-250** offers a low price alternative to our premium column scales. You can find more information about this new low cost column scale on page 15.

New design for **MPPS-250**. Marsden's new MPPS-250 has a more ergonomically designed column making it much easier to assemble. It also features built-in height measure fixings to allow easy adding of the HM200 range of height measures and comes complete with wheels making the scale portable.

**CLIENT PORTAL** - Marsden's newly designed service portal provides contract customers with a total, real time control of their weighing scales. Full scale details, including location, a scale history of maintenance and repairs, calibration certificates and invoices are all available at the touch of a button. See details on page 5.

We have added two new categories to our products for 2013; **laboratory balances and hoists**. Please refer to page 26 for balances and page 27 for hoists.

## Product Specification Key

 Portable	 Class Approval	 2 Years Warranty	 BMI Calculation
 Hold	 Tare	 Mains / Non-Rechargeable	 Mains / Rechargeable (Standard)

For the full range of Marsden Medical Scales please visit: [www.marsden-weighing.co.uk](http://www.marsden-weighing.co.uk)

## Medical scales, designed and manufactured in the UK.

Marsden are committed to developing new, innovative weighing and measuring solutions for the medical industry, providing weighing and measuring solutions for the nation's hospitals, medical centres, GP surgeries and care homes. Marsden have the largest range of approved Class III medical scales in the UK. All Marsden brand medical scales are Class III and are ideal for hospital and primary care weighing applications.

**Reliable.** At Marsden quality of product and service go hand in hand. First class product, designed and built to exceed the expectations of our customers, is backed by our commitment to customer service.

**Accurate.** Marsden scales are engineered to the most precise standards, enabling the most accurate monitoring, diagnosis and treatment of patients.

**Elegant.** Recent product innovation has been driven by feedback from our customers. Our products have been thoughtfully designed and engineered in the UK. The new scales are aesthetically pleasing and functionally sound offering important features not available from others.

“First class product backed by a total commitment to customer service. Our nationwide team of engineers are just a phone call away.”

## MARSDEN Service Package

Marsden offer a comprehensive service package. We are able to re-calibrate or repair scales at our factory or at your premises. This offer applies not just to the scales we sell to you, but to all other scales at your hospital, clinic or surgery.

We offer highly competitive service and maintenance packages anywhere in the UK, undertaken by professional service engineers, all trained to implement the UK Weighing Federation Calibration Code of Practice.

Please call our service office  
**01709 364 296** for details or email:  
**[service@marsdengroup.co.uk](mailto:service@marsdengroup.co.uk)**

**f** MarsdenWeighing  
**t** @MarsdenWeighing

“Our proud history of service to the British medical industry is matched by our determination to provide innovative solutions for the future.”

## MARSDEN Portal

Marsden client portal offers a real time, clear and efficient overview of maintenance and repairs undertaken by Marsden and provides a full scale history to its contract customers. Our portal enables customers to have access to the following services: scale details, calibration certificates, invoices and you can also book a callout.

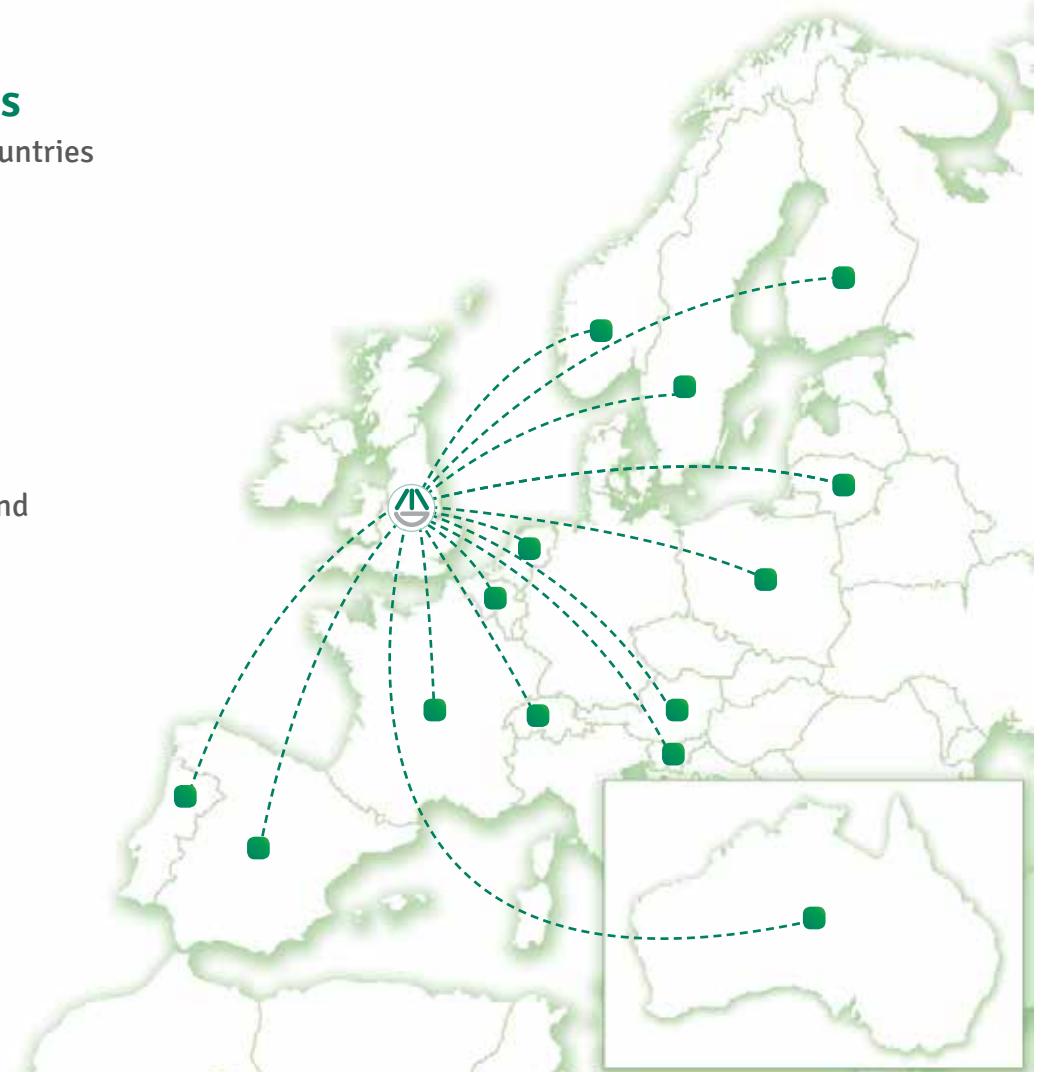

Please call our service office

- Digital display
- Connects to Marsden column scales
- Marsden medical indicator (as on models MPPS-250, M-100)
- Offers automatic readout of weight, height and BMI on the indicator

Dimensions	40mm x 30mm x 1780mm
Measuring range	1.2m - 2m
Increment	1mm
Weight	0.85kg
Power supply	1 x AAA Battery
Price	£150

## HM-200D

### MARSDEN DIGITAL TELESCOPIC HEIGHT MEASURE

#### Features

- Anodised aluminium digital height measure
- Attaches to Marsden column scales
- Data memory feature and data transfer capability

Dimensions	40mm x 30mm x 1780mm
Measuring range	1.2m - 2m
Increment	1mm
Weight	0.85kg
Power supply	1 x AAA Battery
Price	£150

## HM-210D

### MARSDEN DIGITAL WALL-MOUNTED HEIGHT MEASURE

#### Features

- Anodised aluminium digital height measure
- Data memory feature and data transfer capability
- Suitable for wall mounting

Dimensions	70mm x 80mm x 2100mm
Measuring range	1m - 2.1m
Increment	1mm
Weight	1.25kg
Power supply	1 x AAA Battery
Price	£150

## H-628

### MARSDEN FREE STANDING HEIGHT MEASURE

#### Features

- 1" (2.54cm) square anodised aluminium height rod

Base dimensions	350mm(w) x 50mm(h) x 380mm(d)
Minimum height	75cm
Maximum height	2.15m
Increment	1mm or 1/8"
Price	£125

## Height and Length Measures

### H-629-1 / H629-2 MARSDEN BODY MEASURING ROD

#### Features

- 1" (2.54cm) square anodised aluminium measuring rod
- Plastic slider fitted and foot support

H-629-1 Length	1m
H-629-2 Length	2m
Increment	1mm
Price	£65 (H-629-1) £85 (H629-2)

### H-630 MARSDEN WALL-MOUNTED HEIGHT MEASURE

#### Features

- 1" (2.54cm) square anodised aluminium height rod
- Wall fitting
- Attached to wall with two hinges (supplied)
- Plastic slider folds flat to the wall when not in use

Minimum height	75cm
Maximum height	2.15m
Increment	1mm or 1/8"
Price	£65

## Theatre, Swab and Mortuary Scales

### DS-502 WATERPROOF SWAB SCALE

CLASS  
III  
APPROVED

HOLD

TARE

#### Features

- Waterproof loadcell, IP65 rated
- Lightweight and compact design
- Over 1000 hours of continuous use
- Ideal for swab weighing
- Can be supplied with a flat plate - no scoop

Capacity	6kg x 1g, 15kg x 2g, 30kg x 5g
Dimensions	240mm(w) x 270mm(h) x 120mm(d)
Dimensions of plate	232 x 179mm
Power supply	 4 x C type batteries
Adapter (supplied)	3 pin 9V tip -ve
Price (flat plate)	£190
With scoop	£210

### DS-673SS WATERPROOF STAINLESS STEEL SWAB / ORGAN SCALE

CLASS  
III  
APPROVED

HOLD

TARE

#### Features

- Stainless steel scale
- High accuracy
- IP68 rated
- Red LED display
- Ideal for operating theatre (swab or organ weighing)
- Can be supplied with flat plate or a scoop fitted

Capacity	6kg x 1g, 15kg x 2g, 30kg x 5g
Dimensions	250mm(w) x 290mm(d) x 130mm(h)
Dimensions of plate	245mm(w) x 198.5mm(d)
Power supply	
Adapter (supplied)	3 pin 9V tip -ve
Price (flat plate)	£265
With scoop	£285

## MARSDEN PRINTER TP-2100 THERMAL DOT LINE PRINTER

### Features

- High resolution -8 dots/mm
- Max print width 48mm
- Print speed width 75mm/sec
- Print date, time, weight, height and BMI

Price **£185**

## MARSDEN REPLACEMENT BATTERY CHARGERS

- Replacement battery charger for all Marsden scales that operate with battery

DP-3800

DP-2400

Adapter	3pin tip +ve 12V 2A adapter for DP3800	Price	<b>£36</b>
Adapter	Medical- 3pin tip +ve 12V 300m/a	Price	<b>£36</b>

## MARSDEN BABY SCALE RUCKSACK

- Suitable for MS-4100/ MS-4101 and M-300
- Dimensions 600mm(h) x 360mm(w) x 150mm(d)

Price **£30**

## MARSDEN CARRY CASES

### MARSDEN BABY SCALE CARRY CASE

- Suitable for MS-4100 / MS-4101 and M-300
- Dimensions: 590mm(w) x 360mm(h) x 140mm(d)

Price **£30**

### MARSDEN STAND ON SCALES CARRY CASE

- Suitable for MS-4102L / MS-4102DD / MS-4203 / MPMS-250 and MPCS-250
- Dimensions: 390 mm(h) x 350 mm(w) x 150 mm(d)

Price **£30**

## AU Series

CLASS  
II  
APPROVED

HOLD

TARE

The Shimadzu AU series of analytical balances provides extreme accuracy, measuring to 0.1mg, suitable for weighing the finest of substances in hospitals. The scales have internal calibration.

Product Code	Capacity	Graduation	Class III	Internal Calibration	Pan Size	Price
AUX120V	120g	0.0001g	Y	Y	80mm	£1595
AUX220V	220g	0.0001g	Y	Y	80mm	£1750
AUX320V	320g	0.0001g	Y	Y	80mm	£1925
AUY120V	120g	0.0001g	Y	N	80mm	£1250
AUY220V	220g	0.0001g	Y	N	80mm	£1425

## UW Series

CLASS  
II  
APPROVED

HOLD

TARE

The Shimadzu UW series of laboratory balances is ideal for weighing a large range of tablets and medicines within a hospital. The range benefits from internal calibration.

TX423L-V	420g	0.001g	Y	N	110mm	£695
TX2202L-V	2200g	0.01g	Y	N	167 x 181mm	£650
TX3202L-V	3200g	0.01g	Y	N	167 x 181mm	£675
TX4202L-V	4200g	0.01g	Y	N	167 x 181mm	£695

The Shimadzu balances in this catalogue should cover most weighing applications in hospitals. However, should they not do so Marsden do have a wider range of Shimadzu balances available, so please call our Sales Department for further information.

## JOURNEY COMPACT, PORTABLE AND EXTREMELY VERSATILE

### Features

- Unique adjustable cow-horn function
- Compact and easy to manoeuvre
- 155kg/24st safe working load
- Ergonomic design

The Journey has the option of both a standing and transport sling, providing the carer with the option of performing various care duties, including toileting, standing, point to point transfers and walking/rehab.

Lifting capacity	155kg
Weight of standaid	40.2kg
Price	£1745

## PRESENCE OUTSTANDING PERFORMANCE AND LIFTING RANGE

### Features

- Outstanding lifting range (1910mm)
- Greater spatial area for the carer and patient
- Powered base
- Large lifting capacity (SWL) 227kgs/35st
- Interchangeable spreader bar/cradle configuration
- Powered cradle (optional)
- Digital weigh-scale (optional)

The Presence lift can also be fitted with an optional digital weigh-scale device to aid patient monitoring. This Class III certified weigh-scale is extremely compact and has a dual screen display for ease of use. For use with the 6-point spreader bar or 4-point positioning cradles.

Lifting capacity	227kg
Weight of hoist	40kg
Price	£2170

**ELEVATE** EXCEPTIONAL PERFORMANCE, COMBINED WITH OUTSTANDING FLEXIBILITY**Features**

- Heavy duty safe working load (200kg)
- Integrated digital weigh scale
- Easy to adjust knee pad
- Removable foot tray
- Powered base
- Superior ergonomic design
- Integrated weighscale (Class III approved)

The Elevate can be used in conjunction with either a standing or transport sling. This provides the carer with the option of performing various care duties, such as patient monitoring (weight), toileting, standing, point to point transfers and walking/rehab.

Lifting capacity	200kg
Weight of standaid	62kg
Price	£2850

**ADVANCE** SMALL AND VERSATILE, YET INCREDIBLY CAPABLE**Features**

- Compact design
- Easy to transport/store
- Exceptionally versatile

The Advance patient hoist signifies a real stride forward in patient lift design and performance. It uses the latest design and manufacturing technologies to ensure the Advance is the most functional and stylish hoist in its class today.

Lifting capacity	155kg
Weight of hoist	31.7kg
Price	£1575

## STATURE OUTSTANDING ALL-ROUND PERFORMER

### Features

Unique adjustable cow-horn function. The Stature has many key design features which make it a truly flexible piece of equipment:

- Large lift capacity (SWL) 227kgs/35st
- Outstanding lifting range (Min 390mm, max 1550mm)
- Interchangeable spreader bar/cradle configuration
- Powered base
- Powered cradle (optional)
- Digital weigh scale (optional)

The Stature's incredible lifting range enables it to cope easily with the most critical of daily tasks:

- Chair to chair transfers
- Bed to chair transfers
- Floor to chair transfers
- Chair to bath transfers

Lifting capacity	227kg
Weight of hoist	73.5kg
Price	£3095

## CALIBRE EXCEPTIONAL PERFORMANCE

### Features

- Bariatric lifting hoist
- Large lift capacity (SWL) 386kg
- Digital weigh scale (Optional)
- 6-point cradle (Ensures greater comfort for patient)
- Powered base

Lifting capacity	386kg
Weight of hoist	112kg
Price	£6200

Marsden Weighing Group are in a unique position, a UK manufacturer with a nationwide network of service engineers providing a breakdown and repair service, along with scheduled maintenance visits and the accreditation and ability to effect on-site repairs and reverification of scales.

Very few UK companies can offer on-site reverification and Marsden are the only manufacturer with nationwide coverage, we currently handle over 200 NHS contracts nationwide and are accredited to reverify most makes of scale on-site, a true one-stop solution to purchasing and maintaining medical weighing equipment.

All scales are maintained in accordance with Directive 2009/23/EC, Annex II.2

### MEMBERS OF THE UK WEIGHING FEDERATION

The UKWF Code of Practice states: The Code requires UKWF Members to suitably train their personnel in all aspects of the Code and the industry: the UKWF provides a nationally recognised Certificate of Competence for persons engaged in the industry. This Code of Practice has been produced by the UKWF as a means of demonstrating to all interested parties that UKWF Members operate to the highest standards of integrity and professional practice; their compliance with it is compulsory with effect from 1st January 1998.

### LACORS REPORT AND FINDINGS

In October 2009, LACORS (Local Authorities Co-ordinators of Regulatory Services) local government body responsible for overseeing the services run by councils to protect the public made a series of recommendations to hospital trusts. Among these were:

- Each hospital or trust should procure all weighing equipment centrally (rather than on a ward-by-ward basis), ideally by the department responsible for maintaining the equipment.
- Each trust should instigate a programme of testing for their equipment.
- Any inaccurate equipment should be removed from service pending replacement or repair.

Following the survey, the Department of Health issued guidance endorsing these recommendations. Based on the results of the inspections, it is LACORS' continued view that all recommendations remain necessary. This is necessary not only for patient care, but also to prove due diligence if a negligence claim were to be brought, for example.

We offer two separate types of maintenance cover:

### I. SINGLE POINT CALIBRATION CONTRACT

- Our engineers who are fully qualified to the UK Weighing Federation Code of Calibration practice, come to you and test all of your weighing equipment in one visit.
- At the end of each visit, the engineer presents you with a report.
- The weighing scale is tested at a single weight point.
- M1 certified test weights (certificates available on request).
- Provision of loan scales when required.
- On site repair and re-verification.
- Discounts available for contract customers.
- Quick response times.

### II. FULL CALIBRATION CONTRACT WITH CERTIFICATION

- Our engineers who are fully qualified to the UK Weighing Federation Code of Calibration practice, come to you and test all of your weighing equipment in one visit.
- At the end of each visit, the engineer presents you with a report.
- The weighing scale will be tested to capacity over five calibration points using M1 certified test weights (certificates available on request).
- A calibration certificate will be provided which shows scale make and model, serial number and location, linearity and hysteresis, corner testing (where applicable) and repeatability test.
- The calibration certificate provided offers the hospital or clinic full traceability.
- On site repair and re-verification.
- Discounts available for contract customers.
- Quick response times.
- Provision of loan scales when required.

### NON-CONTRACT

Marsden are happy to provide service, repair and calibration to non contract customers.

Please contact our Service Department on **01709 364296** or email: **service@marsdengroup.co.uk**. We will be pleased to provide advice and a quotation.

### RETURN TO BASE CALIBRATION AND REPAIR SERVICE

A cost-effective and fast solution which will repair, calibrate and re-verify your scales within 3 days of receiving the scale and purchase order - avoiding the need for travel time and call out costs.

### PORTABLE MEDICAL SCALES

- Send the weighing scale to our factory.
- We will repair, re-calibrate, re-verify and return it to you or direct to your customer.

### MARSDEN CHAIR SCALES, WHEELCHAIR WEIGHERS & BARIATRIC SCALES

We appreciate that it may be difficult for you or your customer to return larger scales to us. We offer the following solution:

- When needed we can provide packaging that can be sent direct to you or your customer.
- The scale can then be returned or collected by us for repair, re-calibration and re-verification.
- We guarantee that the scale will be repaired and returned to you or your customer within 3 days of receiving the scale and purchase order at our factory.
- We will return the scale and any reports to you or directly to your customer.

### MARSDEN CLIENT PORTAL

Marsden client portal offer a quick, clear and efficient overview of the present service situation to its contract customers.

Marsden Client Portal enables our customers to have access to the following services:

- Asset details
- Calibration certificates
- Invoices
- Booking a callout
- Scale history

**For further details of Marsden service and maintenance, advice regarding your maintenance programme or to arrange a quotation please contact our Rotherham office on 01709 364296 or e-mail: [service@marsdengroup.co.uk](mailto:service@marsdengroup.co.uk). Or visit [www.marsden-weighing.co.uk](http://www.marsden-weighing.co.uk)**

Marsden Weighing Group have been assessed and registered by SGS Limited (UKAS Accredited Notified Body No. 0120) against the provisions of: ISO 9001:2008 Directive 2009/23/EC, Annex II.2, to undertake EC Declaration of Type Conformity.

Scales that have been approved under EC Directive 2009/23/EC and calibrated in accordance with precision Class III or Class IIII are clearly identified in this catalogue with the black on a green background followed by Class III or Class IIII. ie. Class III & Class IIII (Products carrying these symbols meet the requirements of the Directive for Non-Automatic Scales for Medical Use 2009/23/EC).

## MARSDEN WARRANTY POLICY

All products carry a two-year warranty from date of purchase for all faults due to material or construction, faults under this warranty are repaired free of charge, any further claims will be excluded.

All moveable parts – batteries, cables, mains units, rechargeable batteries etc. are excluded.

## TRADE PURCHASES

We operate a strict return to base policy for warranty claims to trade customers, carriage is the responsibility of the customer, claims covered by the warranty will be effected free of charge and we will pay the return transport costs.

## END USER PURCHASES

Warranty claims will be honoured on a return to base policy, return transport costs are to be paid by the customer.

## IMPORTANT NOTE

Warranty claims will be invalidated if the equipment is tampered with by unauthorised personnel.

## CALIBRATION INFORMATION

It is recommended that all medical scales are checked for calibration annually as a minimum by a suitably qualified organisation.

Marsden Weighing Group offer service and calibration contracts nationwide.

## CLEANING

Scale surfaces may be cleaned / disinfected using standard hospital products used for such purposes.

A solution of 1% sodium hypochlorite is suitable.

## TRAINING POLICY

User training for our products is available.

For information please phone Freefone 0800 169 2775 and ask for Product Training.

## PRODUCT SUPPORT

We offer unlimited free telephone product support.

For information on any of our scales phone Freefone 0800 169 2775 and ask for Product Support.

## PRICE / PRODUCT INFORMATION

- Prices are shown without VAT.
- Stamping fees for approved models are included (unless otherwise stated).
- Specification may alter due to a policy of continued product development.

## RETURNS POLICY

- Scales returned due to Marsden error - no charge.
- Order placed is incorrect and subsequent replacement scale is ordered - 10% charge.
- Order placed is incorrect, scale refused on delivery and replacement model is not ordered - 20% charge.
