# Essential Care

The new Essential Care mattress is a pressure redistributing support surface for the residential and community healthcare environment. The castellated surface provides a cost effective solution for comfort

and pressure redistribution to meet the needs of individuals At Risk/High Risk of developing pressure ulcers.

- Key Features**
- Cut foam castellations
  - Multi-stretch polyurethane fabric cover
  - Zipped around 3 sides for ease of inspection and laundering
  - Warranty 1 year
  - Max User weight 140kg (22 stone)

# Pressure Reducing Mattresses

## Essential Basic

The new Essential Basic mattress offers the user a comfortable and supportive surface. This is an ideal entry level mattress for individuals who do not require therapy for pressure ulcer prevention.

- Key features**
- Multi-stretch polyurethane fabric cover
  - Zipped around 3 sides for ease of inspection and laundering
  - Warranty 1 year
  - Max User weight 140kg (22 stone)

# Softform® Premier Active CARE

## Static dynamic pressure re-distributing mattress

The clinically proven Softform Premier ActiveCARE mattress offers a 'Very High Risk' high specification static surface.

- Key Features**
- **Foam cell design**  
The cells offer a stable support surface along with improved comfort for the patient. Advanced material used on the underside of the insert allows the foam to glide over the inner air cells with ease, reducing friction
  - **Channels in Blue foam U core**  
The tubes that supply air to the cells sit into securely designed channels, providing added comfort for the patient
  - **Cost saving modular construction**  
The top cover, bottom cover, foam insert, Blue U core and air cells are all easily replaceable
  - **Digital Pump**  
The digital pump features an LCD screen and audio alarm
  - **Intelligent software**  
The pump can identify and advise the status via the LCD screen
  - **Individual replaceable air cells**  
In case of accidental puncturing, individual air inserts can easily be replaced
  - **Larger brackets**  
The pump has been designed to accommodate a wide range of bed ends with its new larger brackets
